

Technology Experiences Cheerleading

- Campers will be challenged to program a 2-foot tall robot to perform a choreographed dance.

- While working in teams all week long the campers will not only learn teamwork skills but also

- building construction management skills as they pass through various challenges.

- Of course the robots will need music to dance to. The campers will learn how to mix their own music as they learn the physics of sound.

- Aviation Technology has people flying all over the place and so will we, but we are going to do it in the pool! Campers will throw baskets in the pool after they learn the physics behind the madness.

- The campers will be required to create their own 2.5 high person "structure" and then communicate it to the Purdue Cheerleaders, without ever meeting them. All they will have to work with is Alice (a programming program) and a one page word document.

- How do products get from point A to point B? The Industrial technology department will show campers exactly how their shoes, poms and uniform orders get to them through the "Supply Chain Game."

Questions

If you have questions regarding your registration, please contact Lindsay Roberts, conference coordinator at (765) 494-1898 or by e-mail at begley1@purdue.edu

If you have questions regarding the program content, please contact Susan Manahan, (765) 494-2331 or by e-mail at manahan@purdue.edu

COLLEGE OF TECHNOLOGY

July 19 – 21, 2009

Technology Experiences Cheerleading

Bringing technology and cheering together!

Discover why nearly 600 other Purdue women are pursuing a field of study within the College of Technology. *Technology Experiences Cheerleading* is designed for 7th-12th grade women who are currently interested in cheerleading or dance but are not familiar with the technology field.

This camp is the perfect opportunity to discover the many future opportunities in the College of Technology while sharing your love of cheerleading/dance with other women. This five day camp will be packed full of fun and unique technology activities that all relate back to cheerleading and dance. During the week, you will also have many opportunities to work with current and former Purdue cheerleaders.

Discover the opportunities through cheerleading related activities in:

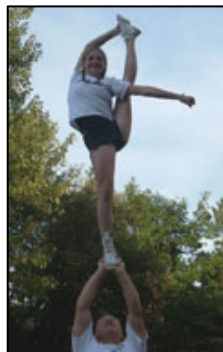

- Aviation Technology
- Building Construction Management
- Computer and Information Technology
- Computer Graphics Technology
- Electrical and Computer Engineering Technology
- Industrial Technology
- Mechanical Engineering Technology
- Organizational Leadership and Supervision

Formally known as “Cheering in the Classroom”

Registration

To register for the Cheering in the Classroom summer camp, fill out the attached registration form, along with the medical form, and return both with payment to the address listed under the “Registration Submission” heading. Participants will receive a confirmation letter when registered.

Dates

Sunday, July 19 at 2:30pm through Thursday, July 23

The program will conclude with a performance and awards starting at noon.

Parents are welcome.

Cost

\$200 per person includes all accommodations, meals, and activities. *NOTE:* Students with a strong desire to attend camp, but lacking financial means, should contact Susan Manahan at manahan@purdue.edu

Transportation

Transportation to and from the camp will be the responsibility of parents or guardians of camp participants.

Location

Purdue University is located in West Lafayette, Indiana. The Lafayette area is 65 miles northwest of Indianapolis and 90 miles southeast of Gary. Major bus lines provide service to West Lafayette and Amtrak trains make daily stops in Lafayette en route to Chicago and Indianapolis. Maps will be included in your confirmation packet.
